THE PASS
BERKSHIRES

ABOUT US

The Pass is a vertically integrated cannabis company dedicated to creating a range of quality cannabis products derived from our own Berkshire-grown and -processed flower in addition to flower sourced from select growers across Massachusetts. We own and manage the cultivation, lab and extraction, manufacturing, and distribution of our products. Our seed-to-sale model reflects our commitment to honoring the rich agricultural history of the Berkshires.

Our mission is to support customers through informed consumption of cannabis flower, concentrates, and infused products.

CULTIVATION

Using a combination of indoor, greenhouse, and farm-field cultivation facilities, we grow clean cannabis for a full range of flavor and experiences.

Both our growing and processing facilities are carefully maintained and managed to develop and maximize the desired characteristics of each strain and ensure purity and consistency from plant to plant, product to product, and year to year.

Nurtured from seed to harvest on-site, The Pass flower selection is curated to provide the broadest range of user experiences possible. Our strain library includes indica, sativa, and hybrids, all cultivated under carefully controlled conditions to ensure high-quality, consistent, and pure cannabinoids in every bud. We also partner with third-party growers that meet our high-quality standards to deliver carefully selected strains to our customers.

Made exclusively from ground flower—never shake—pre-rolls are the easy, budget-friendly option for customers to sample the entire Pass strain library. Each 1g smoke features high-quality weed rolled in RAW paper for a clean, tasteless burn that doesn't interfere with the flavor of the flower.

TRAILBLAZERS

As Berkshire locals, we're committed to preserving the natural beauty of our region. A portion of the proceeds from the sale of TrailBlazers will be donated to Berkshire Natural Resources Council, an organization that shares our desire to conserve land, protect wildlife, support local farmers, enrich climate resilience, and make access to the Berkshires free and available to everyone.

THE PASS
BERKSHIRES

Our search for a Select Reserve premier grower led The Pass to Breathe Free. With an emphasis on growing and preserving deliberate combinations of abundant terpenes, Breathe Free meticulously phenohunts strains to reach the desired characteristics of each cultivar. They work in small batches grown in soil, hand-watering and hand-trimming individual plants to ensure the finished product stays intact with pungent and potent trichomes.
